

TOWER 270 CLEANER CONCENTRATE

Highly Effective Concentrated Cleaner for the Corrugated Industry

DESCRIPTION:

Tower 270 Cleaner Concentrate is a water-based chemical wash-up detergent for Flexo Systems used in the corrugated box industry. Over time, metal particulates in the inks adhere to the anilox cell wall taking valuable cell space from new ink. Tower 270 Cleaner Concentrate is designed to reduce dried ink over time and usage to where you will have a full cell volume available for the fresh flexo ink. The product should be mixed with water at a ratio of 50 parts water and one- part Tower 270 Cleaner Concentrate (50:1)

DIRECTIONS FOR USE:

Recommended usage is at 1:50 or 2%, using a Hydromaster proportioner or any other automatic dosage meter. Used manually, you would use 12 ounces concentrate to 4 gallons of water. Stirring is not necessary and the concentrate will be held in suspension due to a proprietary surfactant that is in the formula.

READ SDS BEFORE USE

FEATURES AND BENEFITS:

- Does not contain any VOC's or Solvents.
- Heavily concentrated at 1:50, for longer usage.
- 100% biodegradable. Will not damage corrugated water system.
- No chemical odor.
- Cleans Conventional and UV inks.

SPECIFICATIONS:

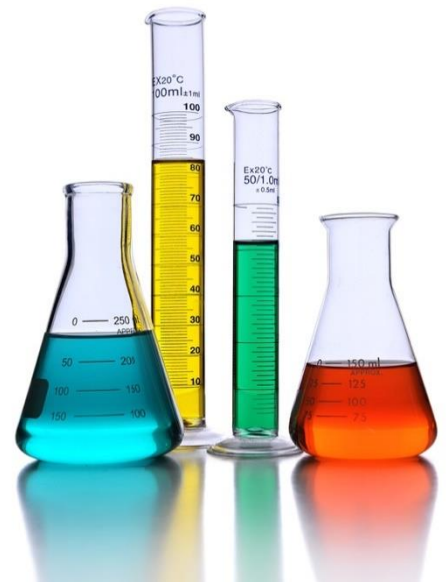

- Flashpoint: None
- VOC: None
- Odor: Detergent
- Appearance: Translucent Water White
- pH of Concentrate: 12

HMIS RATING:

Health: 2 Flammability: 0 Reactivity: 0 Personal Protection: B

PACKAGING:

55 gallon drums, 250 gallon totes

Tower Products is a global manufacturer of pressroom chemistry. Our products are formulated to help increase worker safety and environmental compliance while at the same time providing the printer with the best possible solutions for their printing operation.

Our products include:

- Flexographic Plate Cleaners
- Anilox Roller Cleaners
- Ultrasonic and Hot Tank Cleaners
- Specialty Pressroom Products
