

FLEXOGRAPHIC PRESSROOM CHEMISTRY PRODUCTS

SmartFlex Adhesive Remover

Tower Products is the leading manufacturer of environmentally sensitive pressroom chemistry for the offset and flexographic printing industry.

SmartFlex Adhesive Remover is a new and innovative product for use on plate cylinders in the flexographic and offset pressrooms. It rapidly and effectively removes adhesive residue with no harm to photopolymer plates, cylinders, and machinery. This low odor formula does not contain any toxic ingredients and has a very high flashpoint to enhance workplace safety. It is sold in an easy to use recyclable quart container.
